

At the **National Technology Competition (NTC)**, we are committed to unlocking Nigeria's potential through **technology-driven education, innovation, and professional development**. Our work centers around **empowering individuals, supporting local solutions, and driving national impact** in the field of Information and Communication Technology (ICT).

Our Core Activities:

1. Organize National ICT Competitions

We host an **annual technology competition** that brings together students, professionals, and innovators to showcase their digital skills and creative solutions to local and global challenges.

2. Promote ICT Education and Digital Inclusion

We advocate for **ICT integration in educational systems**—from secondary schools to universities—and provide tools, training, and access to underserved communities and institutions.

3. Empower Through Training and Development

Through workshops, bootcamps, and mentoring programs, we offer **capacity-building initiatives** to help students, educators, and professionals upskill in various areas of technology and digital innovation.

4. Support Local Content and Homegrown Innovation

We champion the creation of **locally relevant technology solutions** by encouraging projects that address the unique needs of Nigerian communities, industries, and the economy.

5. Create Opportunities for Entrepreneurship and Employment

We inspire participants to turn their ideas into **viable tech enterprises**, providing them with exposure, resources, and networks to explore **career paths** and **business ventures** in the ICT sector.

6. Collaborate Through Public-Private Partnerships (PPP)

We work closely with government agencies, educational institutions, and private organizations to build a **strong ecosystem for sustainable ICT growth** and digital transformation.

7. Recognize and Reward Excellence

NTC celebrates the achievements of innovators and changemakers through **awards, scholarships, and national recognition**, fueling motivation and a culture of continuous learning.

 **Our Focus Areas:**

- Digital Literacy and Inclusion
- Technology Entrepreneurship
- Youth and Workforce Empowerment
- Education Technology (EdTech)
- ICT Policy Advocacy
- Innovation for Sustainable Development
